**Project Location:** Central Region of Division of Wildlife Resources

**Project Description:** Purchase of an ATV for CRO habitat section to be used in WMA and guzzler maintenance activites - this machine will replace an old machine currently assigned to the section

**Description of Problem/Need:** The CRO Habitat section is in need of a new ATV to replace an older model machine that is used daily from April through October for WMA and guzzler maintenance. The unit that needs replacement is a 1992 Polaris 250 Trail Boss. It was purchased used in 1999 and has received considerable use since then. This unit requires frequent maintenance to keep it running and needs to be replaced and surplused.

The CRO Habitat section would like a new Honda Forman 500 cc ATV with electric shift. This type of ATV is large, stable and powerful enough to transport equipment and supplies over rough terrain.
